

## LSIP-18 - Air Coil

OFC

Air core coil, 0.18 mH

High power rating and low resistance due to 1.2 mm wire, distortion-free, perfect midrange and 2-way coil for hi-fi applications.

## Technical data:

|                           |                               |
|---------------------------|-------------------------------|
| Description               | : air core coil               |
| Nominal value             | : 0.18 mH                     |
| Rated voltage             | : -                           |
| Power rating              | : 300 W                       |
| Frequency range           | : -                           |
| Housing                   | : -                           |
| Colour/colour coding      | : -                           |
| Enam. copper wire(CUL)    | : $\sim 1.2$ mm               |
| DC resistance             | : 0.15 Ohm                    |
| Saturation current(50 Hz) | : -                           |
| Primary                   | : -                           |
| Secondary                 | : -                           |
| Pin spacing               | : -                           |
| Packing unit              | : 1                           |
| Dimensions                | : $\sim 48$ mm x $\sim 19$ mm |
| Weight                    | : 90 g                        |
| Pos.                      | : -                           |
| Other features            | : -                           |
